Financing

Our lending sources are available to discuss a mortgage for your garage purchase, or you may have your own financing resources.

A very common Garages of Texas loan looks like this: *

- **20% Down Payment**
- **4.5% to 5% Interest**
- **5 Year Loan with a 20 Year Amortization**

Your mortgage payment will depend on the purchase price of the unit and the rates and terms you're able to obtain.

*Finance structure shown as example only. Based on current available rates at time of web publish.
