00.30am *(GMT)*	**9.30am** *(GMT)*

Hello once again,

Another week has flown by!

Power's International Live Sessions …**a Free Educational Programme for Woodturning.**
You are most welcome to bring along your friends, and join us for these **Inspirational, Educational & Entertaining** Woodturning events.

This week's Live Session, aka **'Interactive Remote Demonstrations'** (IRD's) is brought to you direct from Theo Haralampou's studio workshop in Brisbane Australia.
To learn more about Theo – CLICK HERE

It's all about 'Balance' with this project; weight, symmetry, and technique… and that's just making the Yoyo.
Then you need to become skilful in the operation of this fine work of art, but that's another lesson entirely.
There will be plenty of discussion and demonstration around technique, and getting the best finish possible straight from the tool.
So please join us for this fun and functional project. Create a fantastic gift for the festive season, and make someone special smile.

It really is rewarding for us to see so many familiar names and faces each week, and we encourage you all to **bring along your woodworking friends and join our International Live Session community**.
Please remember to let me know which country you will be joining us from with your RSVP.

This week, Theo covers:

• Timber selection and grain orientation

• How to develop excellent spindle gouge control.
• Sanding, burnishing and finishing.
• Yoyo strings and how they work.

We run two sessions (both the same) from Brisbane, Australia. The first will not be an ideal time for you in the UK…(just after midnight on a Saturday morning), but the Second Session will be 9.30am Saturday 14th.
If your Joining us from the US and Canada, then the First session will be the most convenient time for you.

Please RSVP on the form attached or simply send an email to miked@recordpower.co.uk with RSVP in the subject line to register, and I'll send your log in code by return email.

Please remember that your friends and fellow club members are welcome to join us too…all they need to do is send us an RSVP.

Let me know if you have any difficulty registering, and I'll do my best to help.
Hope to see you there!

Mike Davies
